Helmuth: I'm sorry it has come to this in Denmark – though the collapse of all realism about IQ and race in official circles in the Anglosphere made it inevitable. What you need is to get these guys to court – whether of your university or a public court. I managed to put the frighteners on the lefties over three months of luni trials to such an extent that they even died at a rate of knots (suicide, alcoholism etc) as their own errors, lies, hypocrisies, illiteracy, fraudulence and drunkenness were exposed. But having the backing of multimillionaire Jim Woodhill was a great help in finishing off the job, for ELU knew it could get my flat if I took them to a public court and lost. Fortunately, once Jim guaranteed me, I was able to put in the threat to haul their environmentolunatic 'academics' out in public, and they immediately keeled over. Good luck raising the funds you'll need! And remember you'll have to play dirty – in line with what modern lunis have made of themselves. – Chris.
